## **Residential Property Acquisition (Mitigation) Opportunity**

The City of Jacksonville Emergency Preparedness Division is seeking to reduce local flood vulnerability through an upcoming Federal Emergency Management Agency (FEMA) mitigation grant opportunity. Your neighborhood has been identified as a priority due to repetitive flooding of roadways that limit access for residents and emergency vehicles and the continuing threat to residences from storm events.

Participation is voluntary. If you decide to participate in the process, you can withdraw your application at any time.

Immediately following the community meeting, staff will be available to answer any questions you may have about the process. There is no cost to apply. All of your information will be kept strictly confidential and will not be shared outside of the program.

We appreciate your time and will look forward to seeing you at the workshop.
