CITY OF JACKSONVILLE OPIOID PILOT PROJECT STATUS REPORT

June 10, 2019

PROJECT MANAGEMENT TEAM

| NAME | ORGANIZATION | AREA OF RESPONSIBILITY |
|-----------------------|--|--------------------------------------|
| David Castleman | Jacksonville Fire and Rescue | Contract Administration |
| Dr. Raymond Pomm | Gateway Community Services | Program Developer / Medical Director |
| Dr. Huson Gilberstadt | St. Vincent's Medical Center – Riverside | Chief Clinical Officer |
| Courtney Robinson | Gateway Community Services | Lead Care Coordinator |
| Rico Bodin | Gateway Community Services | Recovery Peer Specialist Coordinator |
| Sarah Kim | Gateway Community Services | Data Collection |

PROJECT OBJECTIVE

The purpose of the Opioid Epidemic Pilot Project dubbed “Project Save Lives” is to establish a program within Duval County that provides specialized, coordinated and seamless services for the treatment of opioid addiction and misuse, thereby reducing dependence on opioid drugs and reducing opioid-related deaths. The targeted services are provided by healthcare providers and include, but are not limited to stabilization and treatment for withdrawal, connection to a Recovery Peer Specialist, medication assisted treatment and seamless transfer to residential and/or outpatient services. This program and its services are currently provided through a partnership with the City of Jacksonville, Gateway Community Services, St. Vincent's Health System, Memorial Hospital and Orange Park Medical Center. UF Health was an original partner and provided the program's research, analysis and evaluation report.

PROJECT STATUS

Project Save Lives began on November 16, 2017. Below is the latest update through May 31, 2019:

| DESCRIPTION | COUNT |
|--|------------|
| TOTAL PATIENTS ELIGIBLE FOR PROGRAM PARTICIPATION | 606 |
| NO PROGRAM CONTACT (Expired prior to services) | 12 |
| REFUSED ALL SERVICES (Includes hospital ICU patients and AMA's) | 210 |
| CONSENTED TO PROGRAM SERVICES | 384 |
| PARTICIPANT DISENGAGED FROM SERVICES (no phone services, relocated, declined, death) | 41 |
| DEATH CAUSED BY OPIOIDS | 2 |
| PROGRAM COMPLETION | 158 |
| TOTAL PARTICIPANTS ACTIVELY ENGAGED IN SERVICES | 183 |
| INITIAL TRADITIONAL (Residential, Outpatient, CC) | 42 |
| PEER SUPPORT SERVICES ONLY | 141 |

PROJECT OUTCOMES

From 2017 to 2018, the Jacksonville Fire and Rescue Department experienced a 71 percent decrease in overdose-related responses to participants who accepted services from Project Save Lives. Participants voluntarily provided consent to track recidivism. Two drug-related deaths were reported of the nearly 200 participants receiving services in 2018.

PROJECT EXTENSION AND LEGISLATION

The opioid epidemic program has been extended through September 30, 2019 with a line item appropriation in the City's FY 2018/19 budget (Ordinance 2018-0504). This appropriation will allow services to be expanded to three additional hospitals for a total of seven emergency departments. Legislation has also been introduced to provide an additional \$100,000 to the program to cover the rising cost of medications used to treat and combat opioid addiction. This amount is the equivalent of unused opioid epidemic program funding that was not carried forward into FY 2018/19.

PROJECT EXPANSION

Currently Project Save Lives is providing access to treatment and recovery services in four (4) Jacksonville emergency departments (ED): St. Vincent's Riverside, St. Vincent's Southside, Memorial Hospital and Park West. Project Save Lives continues to work with other area hospitals in hopes of further expanding its services, including consideration of expansion into Jacksonville's Northside community.

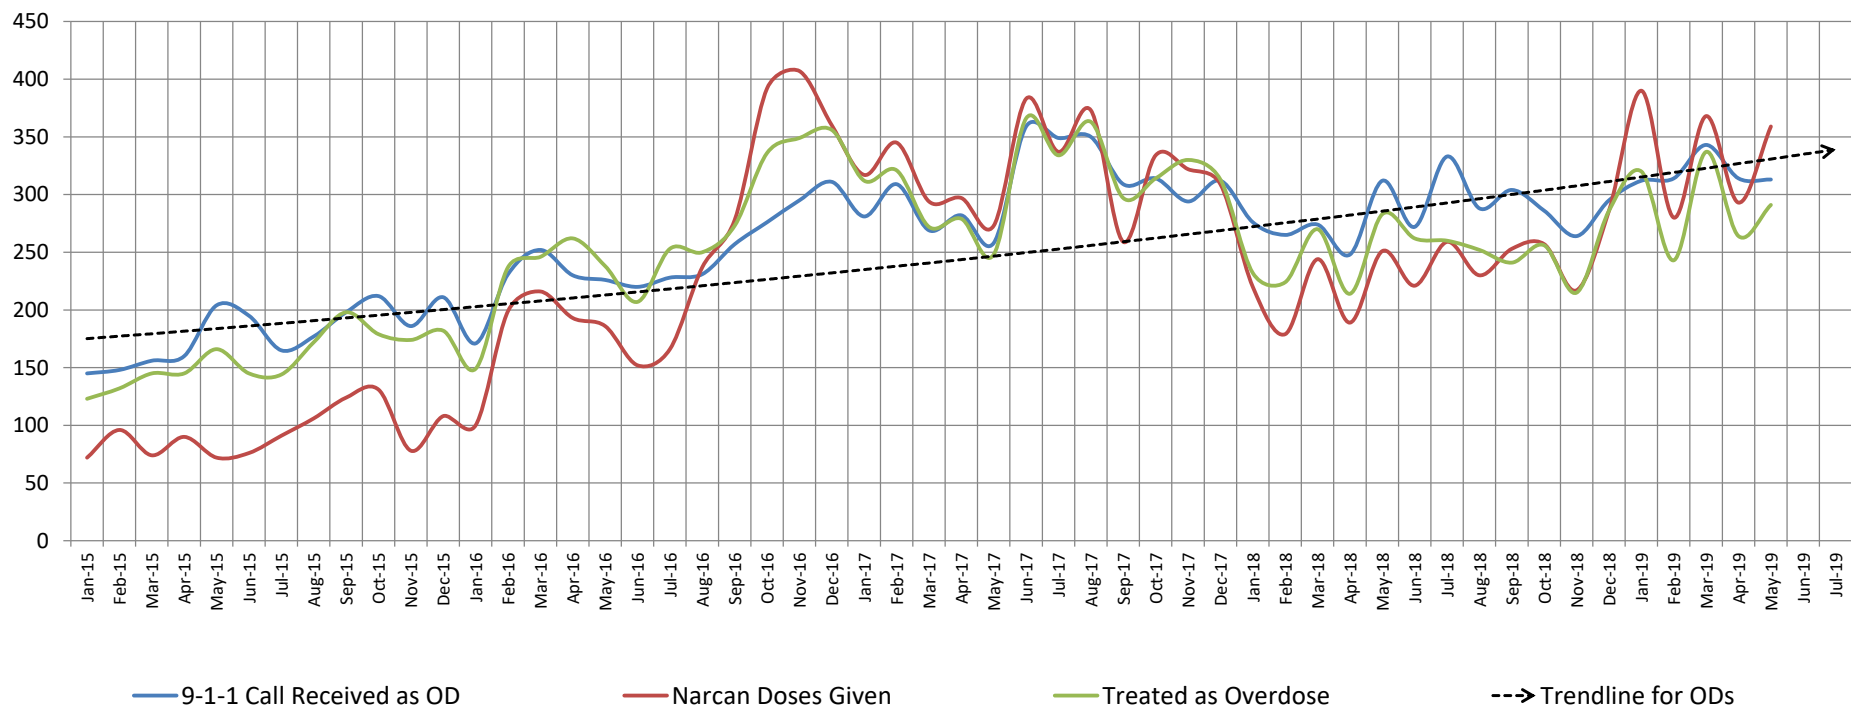

PROJECT OPERATIONS

When overdose patients arrive at a participating hospital Emergency Department, lifesaving stabilization is the priority. Once stabilized, patients are met by a Recovery Peer Specialist who is housed in the emergency department. The Recovery Peer Specialist works alongside the team of physicians and nurses to further aid in the treatment of withdrawal symptoms and offer specialized residential and/or outpatient services. Patients who elect to participate are provided transportation with the Peer Specialist directly to Gateway Community Center or other accepting treatment provider. Patients who elect not to participate in immediate residential services are offered nasal Naloxone at no cost and closely followed by their Peer following discharge. This continued follow up and connection to their Peer allows patients to enter treatment at a later date, which may include participating in an intensive outpatient program or residential treatment.
